

TLC

THE BEST OF BRAUN IN CRITICAL CARE TRANSPORT

The TLC is a collection of the best features and design configurations found in over thirty CCT units delivered to Braun customers. Allowing for full customization, the TLC is a standard model for agencies seeking the best of Braun in critical care patient transportation. Patient and crew safety are second to none on this model, which is built on a Freightliner M2 crew cab, four door chassis with LiquidSpring suspension. It meets the latest safety standards and includes Braun's well-known innovations such as SolidBody™ Construction, all aluminum welded cabinetry, rounded corners, and more. It has five seated positions for crew, all featuring 4-point harness safety belts.

The 191" module length includes dual patient transport capability with a regular cot mount interior, as well as a transverse cot mount interior.

Enhanced staff communication and visibility for patient care was top of mind. There is an FRC intercom system located at the head of the bench, a patient camera inside the module, and dual vista screens on streetside and curbside. In addition, a flip down entertainment system is included for patient comfort.

Both medical oxygen and regular oxygen areas are included to power various types of equipment. There are also two SSCOR suctions and an OTE medical cabinet. A Stadco GP7 Generator and 1800 W Vanner Inverter offer peace of mind that your rig will power through the longest journeys. Whether it's helping to provide pediatric or neonatal care, or transporting critically ill or injured adults, the Braun TLC will go the distance with you.

FEATURES/BENEFITS:

1. Two Cots & Fasteners
Transport two patients instead of one
2. Two SSCOR Suctions
One located over each patient area for easy access
3. OTE Medical Cabinet
Keep critical life saving drugs at temperature
4. Medical Oxygen and Regular Oxygen
To supply any and all types of equipment needed
5. Cabinet Stack at Head of Bench with FRC Intercom System
Improved communication for module crew to correspond with cab crew
6. Patient Camera in Module
Allows driver and cab crew visibility in module at all times
7. Dual Vista Screens Streetside & Curbside
Visibility from multiple seating locations
8. Flip Down Entertainment/DVD System
Enhances patient comfort during extended transport
9. 1800 W Vanner Inverter
A larger inverter provides plenty of power to run needed equipment
10. Stadco GP7 Generator Compartment
To offer peace of mind in powering lifesaving equipment in case of backup
